

#### MOCK TEST PAPER

- PAPER I This paper contains 50 objective type questions. Each question carries 2 marks. Attempt all the questions.
- PAPER II This paper contains 50 objective type questions. Each question carries 2 marks. Attempt all the questions.
- PAPER III This paper contains 75 objective type questions. Each question carries 2 marks. Attempt all the questions. (According to the NEW PATTERN)

Pattern of questions : MCQs

Total marks (PAPER I & II) : 350

Duration of test : Paper I & II - 2.5 Hours

: Paper III - 2.5 Hours

For IT-JAM, JNU, GATE, NET, NIMCET and Other Entrance Exams

#### PAPER - I

- 1. A manager must discover various ...... analyze the reasons for their occurrence and take preventive steps.
  - (A) Cause to communication
  - (B) Barrier to communication
  - (C) Both (a) and (b)
  - (D) None
- "It is communication of feelings, emotions, attitudes, and thoughts through body movements 2. / gestures / eye contact, etc." which type of communication is this?
  - (A) Oral communication
  - (B) Written communication
  - (C) Non verbal communication
  - (D) None
- Which of the following is a part of the English language which helps us to understand 3. sounds of various alphabets?
  - (A) Phonetics
  - (B) Homophones
  - (C)Both (a) and (b)
  - (D) None ...

Questions 4-8 Study the following graph carefully to answer the given questions. PRODUCTION OF TWO COMPANIES A AND B (IN CRORE UNITS) OVER THE GIVEN YEARS

Mobile: 9001297111, 9829567114, 9001297243 Phone: 0744-2429714 Website: <a href="www.vpmclasses.com">www.vpmclasses.com</a> E-Mail: <a href="wpmclasses.com">vpmclasses.com</a> / <a href="mailto:info@vpmclasses.com">info@vpmclasses.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">info@vpmclasses.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">info@vpmclasses.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">info@vpmclasses.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">info@vpmclasses.com</a> / <a href="mailto:downward.com">downward.com</a> / <a href="mailto:downward.com">down

- 4. For Company A, how much is the percent increase in production in 2000 from 1999?
  - (A) 0.25
  - (B) 2.5
  - (C) 25
  - (D)12.5
- 5. How many units is the total production of Company A for the given years?
  - (A) 9 crores
  - (B) 17.75 crores
  - (C) 12.25 crores
  - (D) 11 crores
- 6. What is the difference in units produced by the two companies in 1999?
  - (A) 1,50,000,000
  - (B) 15,00,00,000
  - (C) 15,00,000°
  - (D) 15,000
- 7. How many units is the approximate average production of Company B for the given years?
  - (A) 3 crores

Phone: 0744-2429714 Mobile: 9001297111, 9829567114, 9001297243

- (B) 2.55 crores
- (C) 2.75 crores
- (D) 2.25 crores
- 8. In which year did both the companies have no change in production from the previous year?
  - (A) 2000
  - (B) 2002
  - (C) 2003
  - (D) 2004
- 9. If sampled in reconnaissance mode, data limitation requires use of
  - (A) Maximum
  - (B) Minimum
  - (C) Both (a) and (b)
  - (D) None
- **10.** If estimating average concentrations is planned
  - (A) Exposure units must be defined
  - (B) Sufficient samples are required
  - (C) Both (a) and (b)
  - (D) None
- 11. Which Can be used to evaluate if constituents in subsurface are correlated and have the same or different sources?
  - (A) Scatter plots
  - (B) Ratio plots
  - (C) Multivariate plots
  - (D) None
- **12.** Which of the following Can be used to evaluate if ratios of constituents in subsurface are similar or different from those in indoor/outdoor air?
  - (A) Scatter plots
  - (B) Ratio plots

- (C) Multivariate plots
- (D) None
- **13.** Which of the following collection techniques were used as the primary research methods for this study?
  - (A) Qualitative
  - (B) Quantitative
  - (C) Both (a) and (b)
  - (D) None
- 14. in order to organize, classify and analyze the gathered information, used
  - (A) Graphs
  - (B) Statistics
  - (C) Both (a) and (b)
  - (D) None

Direction (15-19) The strength of Indian Democracy lies in its tradition, in the fusion of the ideas of democracy and national independence which was the characteristic of the Indian Nationalist Movement long before independence. Although the British retained supreme authority in India until 1947, the provincial elections of 1937 provided real exercise in democratic practice before national independence. During the Pacific war India was not overrun or seriously invaded by the Japanese and after the war was over, the transfer of power to a government of the Indian Congress Party was a peaceful one as far as Britain was concerned. By 1947 'Indianisation' had already gone far in the Indian Civil Service and Army, so that the new government could start with effective instruments of central control. After independence, how ever, India was faced with two vast problems; the first, that of economic growth from a very low level of production and the second was that of ethnic diversity and the aspirations of sub nationalities. The Congress leadership was more aware of the former problem than of the second. As a new political elite which had rebelled not only against the British Raj but also against India's old social order, they were conscious of the need to initiate economic development and undertake social reforms, but as nationalists who had led a struggle against the alien rule on behalf of all parts of India,

Address: 1-C-8, Shee la Chowdhary Road, SFS, TALWANDI, KOTA, RAJASTHAN, 324005

they took the cohesion of the Indian nation too much for granted and underestimated the centrifugal forces of ethnic division, which were bound to be accentuated rather than diminished as the popular masses were more and more drawn into politics. The Congress party was originally opposed to the idea of recognizing any division of India on a linguistic basis and preferred to retain the old provinces of British hdia which often cut across linguistic boundaries. However, this was later conceded as the basis for a federal 'Indian Union'. The rights granted to the States created new problems for the Central Government. The idea of making Hindi the national language of a united India was thwarted by the recalcitrance of the speakers of other important Indian languages and the autonomy of the States rendered central economic planning extremely difficult. Land reforms remained under the control of the States and many large-scale economic projects required a degree of cooperation between the Central Government and one or more of the States which, it was found, was impossible to achieve. Coordination of policies was difficult even when the Congress party was in power both in the State and at the Centre. When a Congress Government in Delhi was confronted with non-Congress parties in office in the States, it became much harder.

- **15.** Which of the following problems was India faced with after Independence?
  - (A) Military attack from a country across the border.
  - (B) Lack of coordination between the Central and State Governments.
  - (C) Improper coordination of various Government policies
  - (D) Increasing the production from a very low level
- **16.** Which of the following issues was not appropriately realized by the Central Government.
  - (A) Ethnic diversity of the people
  - (B) A national language for the country
  - (C) Implementation of the formulated policies
  - (D) Centre -State relations
- **17.** Why was central economic planning found to be difficult?
  - (A) Multiplicity of States and Union Territories

Phone: 0744-2429714 Mobile: 9001297111, 9829567114, 9001297243

- (B) Lack of coordination in different Government departments
- (C) Autonomy given to the States in certain matters
- (D) Lack of will in implementing land reforms
- **18.** Why was the linguistic reorganization of the State accepted?
  - (A) The States were not cooperating with the Central Government
  - (B) Non- Congress Governments in the States demanded such a reorganization of the States
  - (C) No common national language emerged
  - (D) Strong pressure from the States was exerted on the Central Government to create such States
- **19.** Which, according to the passage, can be cited as an exercise in democratic practice in India before Independence?
  - (A) The handing over of pow er by the British to India
  - (B) The Indianisation of the Indian Civil Service
  - (C) A neutral role played by the Army
  - (D) None of the above
- **20.** The information to be collected in survey method are related to
  - (A) Present Position
  - (B) Aims of the research
  - (C) The attainment of aim of research
  - (D) All of the above
- 21. Research is done for
  - (A) Know ledge of research process
  - (B) Solving a business problem
  - (C) Interest in research
  - (D) Experience
- A research problem is feasible only when
  - (A) It is researchable

- (B) It has some utility
- (C) It is new
- (D) All of the above
- 23. One of the essential characteristics of research is
  - (A) Sensitivity
  - (B) Generalizability
  - (C) Usability
  - (D) Replicability
- 24. Identify the main Principle on which the Parliamentary System operates.
  - (A) Responsibility of Executive to Legislature
  - (B) Supremacy of Parliament
  - (C) Supremacy of Judiciary
  - (D) Theory of Separation of power
- 25. The reservation of seats for women in the Panchayat Raj Institutions is:
  - (A) 30% of the total seats
  - (B) 33% of the total seats
  - (C) 33% of the total population
  - (D) None
- Match list I with list II and select the correct from the code given below: 26.

List I (Institutions)

List II (Locations)

- 1. Indian Veterinary Research Institute
- 2. Institute of Armament Technology
- 3. Indian Institute of Science

- i. Pune ii. Izat Nagar
- iii. Delhi
- 4. National Institute for Educational Pannesi and Administrators vi. Bangalore
- (A) 1-ii, 2-i, 3-iv, 4-ii
- (B) 1-ii, 2-iv, 3-ii, 4-iii

- 3. Who defined apperception as the awareness of any conscious content that is clearly comprehended or grasped
  - (A) Ratliff
  - (B) EB. Titchener
  - (C) J.B. Watson
  - (D) Wilmhelm Wundt
- **4.** In 1915; Edgar Rubin introduced the idea of:
  - (A) Figure and Ground
  - (B) Phi-phenomenon
  - (C) Physiological Nystagmus
  - (D) Illusion
- 5. A familiar study on perception which has shown that the poor children overestimated the size of coins to a greater degree than wealthy children, was done by:
  - (A) Bruner and goodman
  - (B) Osgood
  - (C) Dember
  - (D) Murray
- 6. Mowerer's two-factor theory takes into consideration the fact that:
  - (A) Some conditioning do not require reward and some do
  - (B) Every conditioning requires reinforcement
  - (C) The organ is m learns to make a response to a specific stimulus
  - (D) Learning is purposive and goal-oriented
- 7. The methods of verbal learning are important because:
  - (A) The use of standard methods for learning makes comparisons of result possible
  - (B) Rewards are not necessary here
  - (C) They minimize the effect of punishment

- (D) Punishment has no effect on learning
- **8.** A high positive transfer results when stimuli are similar and response are;
  - (A) Identical
  - (B) Not identical
  - (C) Haphazard
  - (D) Equipotential
- 9. For Skinner, the basic issue is how reinforcement sustains and controls responding rather than:
  - (A) Which stimulus evokes a response
  - (B) Which response is helpful
  - (C) Which stimulus can be generalized
  - (D) Which stimulus can be discriminated
- **10.** In operant conditioning the strength of an operant response is usually measured in terms of frequency of lever pressing:
  - (A) Per unit of time
  - (B) In every five minutes
  - (C) As a whole
  - (D) In a day
- 11. When two regions of life space interact with each other, it produce a/an:
  - (A) Event
  - (B) Image
  - (C) Dream
  - (D) Idea
- **12**. Vector refers to those psychological forces that influence the person to the extent that he moves in:
  - (A) Different directions
  - (B) Negative direction

  - (A) Humour
  - (B) Enzyme
  - (C) Phlegm
  - (D) Blood
- **19.** Perception without sensory stimulus is called:
  - (A) **ll**usion
  - (B) Hallucination
  - (C) Phenomenon
  - (D) Perceptual constancy
- 20. "It is not a different process, it is just attention to irrelevant stimuli that are not a part of the main assigned task" then what it is:
  - (A) Distraction
  - (B) Span of attention
  - (C) Shifting of attention
  - (D) Division of attention
- 21. "The individual may try to be the self his mother expects, the self his father expects, the self other people expect, the real self he thinks he should be conflicts among these subselves may make choices and decisions both difficult and anxiety amusing and vacillation in decision and various neurotic manifestations" Which type of conflict coleman (1981) Explains through the above example:
  - (A) Approach-Avoidance conflict
  - (B) Approach-Approach conflict

- (C) Intrapsychic conflict
- (D) Double Approach-Avoidance conflict
- 22. Who has classified conflicts into three different types from the topological point of view such as Approach-Avoidance, Approach-Approach and avoidance-avoidance:
  - (A) Kurt Lewin
  - (B) Sigmund Freud
  - (C) Alfred Adler
  - (D) Eric Fromm
- 23. Who has defined frustration as that condition which exists when a goal response suffers interference
  - (A) J.B.Watson(1920)
  - (B) J. P. Sullivan (1973)
  - (C) Miller and Dollard(1939)
  - (D) T.E. Shan mugam(1975)
- 24. The painful tense state of an individual aroused on account of the indecisiveness in making a choice between two or more opposing or contradictory desires is called:
  - (A) A stress
  - (B) An incentive
  - (C) A conflict
  - (D) A ritual
- 25. When a person does not allow himself to think of particular episode, it is:
  - (A) Regression
  - (B) Suppression
  - (C) Repression
  - (D) Denial
- **26.** The movement or shift from one status position to another in a given social space for system of stratification is known as:
  - (A) Social mobility

- (B) Marginality
- (C) Cultural hybrid
- (D) Group dynamics
- 27. "Medical association of India" is an illustration of
  - (A) Inclusive group
  - (B) Formal group
  - (C) Exclusive group
  - (D) Informal group
- 28. The social behaviour that does not follow an organized pattern of convention and expectations is called
  - (A) Mbb behaviour
  - (B) Crow d behaviour
  - (C) Collective Behaviour
  - (D) Haphazard behaviour
- **29.** The shared convictions about the pattern of behaviour that are appropriate or inappropriate for the members of the group are called:
  - (A) Status
  - (B) Roles
  - (C) Norms
  - (D) References
- 30. A university student leader once said that a way must be found to increase college spirit a social psychologist interpreted that the student leader was really talking about to look for a technique to change:
  - (A) Group cohesiveness
  - (B) Group attitude
  - (C) Group prejudice

- (D) Group jealousy
- 31. While dealing with hierarchy of needs, Maslow has kept self-actualization:
  - (A) At the second position
  - (B) At the top
  - (C) At the third position
  - (D) At the last position
- Projective techniques are not considered tests in true sense because there are: 32.
  - (A) No right or w rong answers
  - (B) Only wrong answers
  - (C) Only right answers
  - (D) No right answers
- E.P.P.S. (Edw ards Personal Preference Schedule) was developed by Edw ards who used: 33.
  - (A) Forced choice technique
  - (B) Free choice technique
  - (C) Multiple choice technique
  - (D) Alternative choice technique
- 34. Intellectualization involves:
  - (A) Intelligence
  - (B) Perception
  - (C) Reasoning
  - (D) Emotion
- 35. According to psychoanalytic theory, the sbre house of unconscious instincts is:
  - (A) Ego
  - (B) Id
  - (C) Super ego

- (D) Id and ego
- 36. The point on the score scale which 50 percent of the scores fall is called
  - (A) Mean
  - (B) Mode
  - (C) Median
  - (D) None of the above
- 37. The removal of the brain tissue for experimental purposses is known as
  - (A) Removal
  - (B) Lesion
  - (C) Operation
  - (D) Extirpation
- 38. Which measure of central tendency can be computed by just having a look at the data
  - (A) Crude mode
  - (B) Median
  - (C) Mean
  - (D) None of these
- 39. The interval between the highest and the low est score is popularly known as:
  - (A) Range
  - (B) S.D.
  - (C) Quartile Deviation (Q)
  - (D) Mean Deviation (A.D)
- **40.** The formula for finding out AD from grouped data is:

$$(A)$$
 AD =  $\sum IXI/N$ 

(B) 
$$AD = \sum IfxI/N$$

(C) 
$$AD = \sum |\sum x|/N$$

$$AD = \sum |\sum x|/x$$

- **41.** The theories that emphasize how people subjectively understand, interpret and experience the world are known as:
  - (A) Consonance theories
  - (B) Dissonance Theories
  - (C) Learning the ories
  - (D) Cognitive theories
- **42.** Whether or not a child's genotype for high intellectual activity is manifested in school performance will depend upon:
  - (A) Whether or not the child's parents stimulate and encourage the child intellectual pursuits
  - (B) Teacher's personality in the school
  - (C) The personalities of the classmates of the child
  - (D) Whether or not the child's teachers love and behave in a proper way
- 43. A child has two alleles of every gene in his body, one from his mother and one from his father if the alleles from the both parents differ he is said to be:
  - (A) Heterozygous
  - (B) Homozygous
  - (C) An identical tw in
  - (D) A fraternal tw in
- **44.** The presence of some of the sexual characteristics or reproductive systems of both males and females in one person is known:
  - (A) Hermaphroditism
  - (B) XXY males
  - (C) Klinefelter's syndrome
  - (D) Turner syndrome
- **45.** The adrenal glands are located:

- (C) S-P. Theorist
- (D) S-N Theorist
- **8.** According to Jean Piaget, egocentrism is a major hindrance to:
  - (A) Memory
  - (B) Cognitive Development
  - (C) Learning
  - (D) Creativity
- 9. The number of offsprings a mother has previously borne is called
  - (A) Twins
  - (B) Parity
  - (C) Infants
  - (D) Ne onates
- 10. Who has used directive play therapy as a substitute of verbal method of treatment?
  - (A) Reynor
  - (B) Anna Freud
  - (C) J.B. Watson
  - (D) Sigmund Freud
- 11. The author of the hierarchical theory of motivation is
  - (A) O.H. Mowrer
  - (B) Mc Clelland
  - (C) J.W. Atkinson
  - (D) A.H. Maslow
- 12. Studies indicated that the hypothalamus contains cells (glucoreceptore) sensitive to the rate of which
  - (A) Glucose passes through them

### VPM CLASSES

 ${\tt CSIR\,NET,GATE,IIT\text{-}JAM,UGC\,NET\,,TIFR,IISc,JEST,JNU,BHU,ISM,IBPS,CSAT,SLET,NIMCET,CTET}$ 

Which one of the following significance levels in most rigorous?

	(A) .05
	(B) .02
	(C) .01
	(D) .005
43.	A test score that has not been converted into a form permitting comparison with scores from
	other tests is known as a
	(A) Stanine score
	(B) Percentile score
	(C) Raw score
	(D) Quartile score
44.	What produces the hormone insulin?
	(A) Kidney
	(B) Thyroid gland
	(C) Pancreas
	(D) Hypothalamus
45.	In the centre of the brain stem, running from the medulla up to the midbrain there is a
	complex region containing many clumps of neurons and a number of nerve fibres called
	(A) Pons
1	(B) Mdbrain
	(C) Reticular formation
	(D) Cerebellum
46.	The parts of the body that are capable of reacting to sexual stimuli are called
	(A) Erotogenic Zones

- (A) Intelligence
- (B) Memory
- (C) Motor learning
- (D) Mechanical aptitude
- 56. In the skinner-box experiments, it has been found that, compared with animals receiving normal extinction trials, animals receiving punishment during extinction trials exhibit
  - (A) Few er total responses prior to complete extinction
  - (B) More total responses prior to complete extinction
  - (C) The same total number of responses prior to extinction
  - (D) Retroactive inhibition
- 57. Match List I with List II and select the correct answer using the codes given below the lists.

#### Listl

- (a) Omission Training
- (b) Punishment stimulus)
- (c) Negative Reinforcement
- (d) Positive Reinforcement

#### List II

- 1. Application of undesirable (aversive) stimulus
- 2. Removal or postponement of undesirable (aversive)
- 3. Removal of desirable (appetitive) stimulus
- 4. Application of desirable (appetitive) stimulus

#### Codes

(a)	(b)	(c)	(d)
(A) 1	2	3	4
(B) 2	1.	3	4
(C) 3	1	2	4
(D) 4	3	2	1

**58.** Which theory suggests the people in groups become less conservative because any negative consequences for the decision are shared by the group member?

Address: 1-C-8, Sheela Chowdhary Road, SFS, TALWANDI, KOTA, RAJASTHAN, 324005

- (A) Distraction theory
- (B) Conflict theory
- (C) Evaluation apprehension theory
- (D) The theory of diffusion of responsibility
- **59.** Sternberg's short-term memory research focused on the question of whether memory search processes are
  - (A) Parallel or serial
  - (B) Anterograde or retrograde
  - (C) Primary or secondary
  - (D) Classical or instrumental
- **60. Assertion (A):** Material-induced organisation requires no psychological process because the organisation is in the material.

Reason (R): The process of organisation detects or imposes the structure of the material.

- (A) Both A and R are true and R is the correct explanation of A
- (B) Both A and R are true and R is not the correct explanation of A
- (C) A is true but R is false
- (D) A is false but R is true
- **61.** The unconscious thought processes involved in creative thinking are worked out during the period of
  - (A) Incubation
  - (B) Preparation
  - (C) Ilumination
  - (D) Evaluation
- **62.** One of the early proponents of the idea that thinking is nothing more than language behaviour was

# HINTS AND SOLUTIONS PAPER -I

- 1. (B) An effective and efficient communication system requires managerial proficiency in delivering and receiving messages. A manager must discover various barriers to communication, analyze the reasons for their occurrence and take preventive steps to avoid those barriers. Thus, the primary responsibility of a manager is to develop and maintain an effective communication system in the organization.
- 2. (C) non verbal communication is communication of feelings, emotions, attitudes, and thoughts through body movements / gestures / eye contact, etc.
- **3. (A)** Phonetics is a part of the English language which helps us to understand sounds of various alphabets. How an alphabet should sound is taught to us with the help of Phonetics.

**4.(C)** % increase = 
$$\frac{0.25 \text{ crore}}{1 \text{ crore}} \times 100$$
  
= 25 %

5.(D) for company A

**6.(A)** 
$$(2.5-1)$$
 crores =  $1.5 \times 100000000$   
=  $150000000$ 

7.(B) Total production of B

Average production = 
$$\frac{17.75}{7}$$
 = 2.55

8.(D) In year 2004.

Address: 1-C-8, Shee la Chowdhary Road, SFS, TALWANDI, KOTA, RAJASTHAN, 324005

- **9.(A)** If sampled in reconnaissance mode, data limitation requires use of maximums. Results are screening level- not definitive.
- 10.(C) If estimating average concentrations is planned

Exposure units must be defined Must be considered in developing DQOs for project, or results may not be accepted.

Sufficient samples are required 8-10 samples when contaminant concentrations vary within a narrow range 10-15 sample when concentrations are less predictable

Calculate 90th Upper Confidence Limit (UCL)

- **11.(A)** Scatter plots Can be used to evaluate if constituents in subsurface are correlated and have the same or different sources.
- **12.(B)** Ratio plots Can be used to evaluate if ratios of constituents in subsurface are similar or different from those in indoor/outdoor air, potentially informing decisions about confounding ambient sources.
- **13.(A)** Qualitative data collection techniques were used as the primary research methods for this study. Participant and direct observation plus note taking were the most important techniques used.
- **14.(C)** qualitative data collection techniques were used as primary research methods. However in order to organize, classify and analyze the gathered information, we used graphs and statistics as a way to measure the students' level of improvement through the use of reading strategies
- 15.(D) Production was at very low level.
- **16.(A)** Ethnic diversity of the people was not appropriately realized by the Central Government.
- 17.(C) Central economic planning found to be difficult because autonomy was given to the States in certain matters
- **18.(D)** Because that time no common language emerged.

- **19.(B)** "The Indianisation of the Indian Civil Service", can be cited as an exercise in democratic practice in India before Independence
- **20.(D)** The information to be collected in survey method are related to present position, aims of the research &the attainment of aim of research
- 21. (B) Research is done for solving a business problem
- 22. (D) A research problem is feasible only when it is researchable, it has some utility, and it is new.
- 23. (C) One of the essential characteristics of research is usability
- 24.(A)A parliamentary system is a system of democratic government in which the ministers of the Executive Branch derive their legitimacy from and are accountable to a Legislature or parliament; the Executive and Legislative branches are interconnected. It is a political system in which the supreme power lies in a body of citizens who can elect people to represent them.
- **25.(D)** The Cabin et approved the proposal for enhancing reservation for women in Panchayats on from the present 33 per cent to 50 per cent with the provision being applicable to all seats filled through direct election, office of chairpersons and of offices reserved for SC/ST.
- 26.(A) IVRI is situated in Izat Nagar.

IAT is situated in Pune

IISc is situated in Banglore

NIEPA is situated in Delhi.

- **27.(B)** Dr. P B Gajendragadkar was chairman of the UGC committee 1969 appointed for administrative legislation of the universities.
- 28.(B) UGC has launched career oriented program in 1994-95.
- 29.(A) The prime minister of India is appointed from the leading Party in Lok Sabha.
- **30.(B)** The study of interrelations between Organism and their environment is called ecology.

- **6.(A)** Mowerer's two-factor theory takes into consideration the fact that some conditioning do not require rew and and some do.
- **7.(A)** The methods of verbal learning are important because the use of standard methods for learning makes comparisons of result possible.
- **8.(A)** A high positive transfer results when stimuli are similar and response are identical.
- **9.(A)** For Skinner, the basic issue is how reinforcement sustains and controls responding rather than which stimulus evokes a response.
- **10.(A)** In operant conditioning the strength of an operant response is usually measured in terms of frequency of lever pressing per unit of time.
- 11.(C) When two regions of life space interact with each other, it produce a dream.
- **12.(D)** Vector refers to those psychological forces that influence the person to the extent that he moves in a particular direction.
- **13.(A)** The system of Ego Brunswik is popularly known as field theory.
- **14.(A)** In Lew in's topological system emphasis was placed upon the study of "life space" which includes person and psychological environment.
- **15.(A)** Mc Dougall has considered istincts as "release mechanism or just easily exploding containers of energy"
- **16.(A)** A child has two alleles of every gene in his body, one from his mother and one from his father if the alleles from the both parents differ he said to be heterozygous.
- **17.(B)** The ability to perceive and understand a situation or incident from another persons point of view is called social foresight.
- **18.(D)** Prior to Mendel's work, it was thought that heredity was transmitted from parents to offsprings by Blood.

Address: 1-C-8, Shee la Chowdhary Road, SFS, TALWANDI, KOTA, RAJASTHAN, 324005

- **30.(A)** A university student leader once said that a way must be found to increase college spirit a social psychologist interpreted that the student leader was really talking about to look for a technique to change group cohesiveness.
- 31.(B) While dealing with hierarchy of needs, Maslow has kept self-actualization at the top.
- **32.(A)** Projective techniques are not considered tests in true sense because there are no right or wrong answers.
- **33.(A)** E.P.P.S.(Edwards Personal Preference Schedule) was developed by Edwards who used forced choice technique.
- **34.(C)** Intellectualization involves reasoning.
- 35.(B) According to psychoanalytic theory, the sbre house of unconscious instincts is ld.
- **36.(C)** The point on the score scale which 50 percent of the scores fall is called median.
- **37.(D)** The removal of the brain tissue for experimental purposses is known as Extirpation.
- **38.(A)** Crude mode measure of central tendency can be computed by just having a look at the data.
- **39.(A)** The interval between the highest and the low est score is popularly known as range.
- **40(B)** The formula for finding out AD from grouped data is:

$$AD = \sum IfxI/N$$

- **41.(D)** The theories that emphasize how people subjectively understand, interpret and experience the world are known as cognitive theories.
- **42.(A)** Whether or not a child's genotype for high intellectual activity is manifested in school performance will depend upon whether or not the child's parents stimulate and encourage the child intellectual pursuits.

- **5.(A)** Pavlov coined the concept of higher order conditioning.
- **6.(B)** A branch of "Special Psychology" which examines the mental development of the blind and people with poor eyesight is called typhopsychology.
- 7.(B) E.L. Thorndike was a S-R. theorist.
- **8.(B)** According to Jean Piaget, egocentrism is a major hindrance to cognitive development.
- **9.(B)** The number of offsprings a mother has previously born is called parity.
- **10.(B)** Anna Freud has used directive play therapy as a substitute of verbal method of treatment.
- **11.(D)** The author of the hierarchical theory of motivation is A.H. Maslow.
- **12.(A)** Studies indicated that the hypothalamus contains cells (glucoreceptore) sensitive to the rate of which glucose passes through them.
- **13.(D)** At birth, the neonate has no specific emotion.
- 14.(A) Jean Piaget has introduced sensory motor stage theory.
- **15.(A)** The direct explanation of the risky shift, rests on the phenomenon of diffusion of responsibility.
- **16.(D)** The approach which has its roots in Gestalt Psychology is popularly known as cognitive approach.
- **17.(B)** When the data are too scattered to justify the computation of a more precise measure of variability, we generally use range.
- **18.(D)** Wilhelm Wundt setup the first psychological laboratory in 1879 at the University of Leipzig.
- **19.(A)** The most popular and widely used objective test of personality is MMP1.
- **20.(B)** Jung believed that the universality of the collective unconscious could be accounted for by evolutionary theory, through the similarity of brain structure evident in all human races.
